

DEATH REGISTRATION

IMPORTANT NOTICE – PLEASE READ

During the registration you will be asked to check and sign that the information you have given the registrar has been recorded correctly.

It is **your** responsibility to ensure that there are no mistakes – this includes spelling mistakes.

A death registration is a legal document and therefore it is important that it is accurate.

Errors discovered **after** you have signed the register may have to be corrected. This could cause delays to funeral arrangements and processing of the deceased's affairs.

Please note that some corrections will be shown on the certificate – you will not always receive a new 'clean' certificate.

Fees for corrections to Initial Registration	
Consideration of corrections authorised locally	£75
Consideration of corrections which need referral to the Registrar General	£90
