**WEEKEND AND NIGHT TIME CLOSURES BETWEEN LYDE GREEN AND SISTON HILL
ROUNDAABOUT 6 TO 18 MAY 2016
CHALLENGE FUND PROJECT A4174 RING ROAD
MAJOR MAINTENANCE WORKS**

I am writing to advise you about essential maintenance roadworks that are to be carried out on the A4174 between the Dramway and Rosary roundabouts and connecting road, between 6th and 18th May and marked B and C on the plan attachment. They also support the reconstruction of the Rosary roundabout currently being undertaken.

In order to undertake these works, there will full closure of the road between Lyde Green and Siston Hill roundabouts, marked A and D on the plan attachment, as follows:

1. Complete weekend closure during the day and night from the night of 6 May at 20:00 hours to be reopened by 06.00 hours on 9th May.
2. Night time full closure from 9 to 12 May between 20:00 hours and 06:00 hours.
3. Complete weekend closure during the day and night from the night of 13 May at 20:00 hours to be reopened by 06.00 hours on 16 May.
4. Night time closure from 16th May to 18th May between 20:00 hours and 06:00 hours.

Diversion routes will be in place and will be clearly signed.

If you receive deliveries during these times, you will need to liaise with your delivery company to arrange an alternative route into Emerson's Green Retail Park. There are no weight restrictions along surrounding roads.

The works are being carried out as part of the Challenge Fund project where South Gloucestershire Council were awarded some £14.0m from the Department for Transport for improvements to the carriageway, footpaths, cycle- ways, drainage systems and structures. We have already undertaken some work to the highway along sections of the A4174 in October 2016.

Unfortunately due to the size and complexity of the scheme, this letter does not allow me to supply full details of the programme of works. Advanced signage will be placed along the route as the works progress. For further information on the forthcoming works you can also refer to the Council's website for this scheme which is currently being updated to include details of the work and diversion routes:-

<http://www.southglos.gov.uk/transport-and-streets/challenge-fund>.

We understand this may cause some inconvenience and disruption to you, and we would like to apologise in advance and kindly ask for your patience whilst the works are taking place.

If you need any further information please contact Michael Dixon on 01454 868000 or by email at challengefund@southglos.gov.uk
