Each year is measured in base periods to 30th October.

At the end of each base period, relevant authorities have 3 years in which to permission equivalent number of plots of land, which are suitable for self-build and custom housebuilding , as there are entries for that base period.

Rolling three year deadline to meet demand in each 'base period'.

Duty applies to assessed local connection only (part 1).

Demand has to be met by "sufficient suitable" development permissions of serviced plots.

A serviced plot = a plot with access to a public highway and utilities, or can be provided.

Applications are basedlined at the end of the base period - no concession for names subsequently withdrawn.
