

South Gloucestershire Heritage Partnership Meeting

24th March 2021 11.00 – 13.00

Online with Microsoft Teams

This meeting will feature two significant projects in South Gloucestershire, Dyrham Park and William Champion's Brassworks garden, Warmley.

After the break, there will be a talk on metal-detecting and treasure: best practice and responsibilities for town and parish councils and landowners. This will be useful for heritage organisations to attend for information purposes.

This is an opportunity for you to hear about examples of good practice, join in with the question and answer sessions and share your heritage project through giving an update at the end.

11.00 Introductions

11.10 Dyrham Park Reworked: A National Trust Transformation Property. Tim Cambourne, Senior Project Manager.

11.35 Resurrecting the early 18th century industrial garden of William Champion. Kay Ross, Chair of the Friends of William Champion's Garden.

12.00 Break

12.10 Metal-detecting and Treasure: best practice and responsibilities for Town and Parish Councils and landowners. Gail Boyle FMA FSA, Senior Curator (Archaeology & World Cultures) | Bristol Culture & Creative Industries. Chair: Pucklechurch Parish Council. DCMS Treasure Valuation Committee member. Portable Antiquities Advisory Group member.

12.35 More time for questions for speakers and short project updates / discussion.

13.00 End.
